There are presently 4 lawsuits pending and involves the taking of my inheritance which is a large west Texas Cattle Ranch in Stonewall County, Texas.

Please help! This entire case smacks of RICO and we can't get anyone's attention in Texas. This case involves wind energy, water, transmission lines, judicial malfeasance and conspiracy to defraud the U.S. Treasury involving a fraudulent transfer of estate lands to T. Boone Pickens aided and abetted by several people and entities, most particularly Alamo Title which is owned by Chicago Title.

We ask for an investigation from the U. S. Dept of Justice. In the past we have asked presiding Texas judges including the

Eastland Court of Appeals, and all requests have fallen on deaf ears. Most are saying it is 'out of their jurisdiction'. Not my job or ignoring the request as though they never heard it.

Please contact us for more details. Texas is filled with corruption right now and involves very powerful people. We have been run out of money, forced to defend pro se, forced out of our home and business.
